

RSC-BMCS Hall of Fame and Medal 2023

Call For Nominations

The BMCS is pleased to announce the 2023 call for nominations for its Hall of Fame and associated medal which recognises chemists for outstanding, sustained, significant contributions to any area of interest to the BMCS, including medicinal chemistry, agriscience, bio-organic chemistry, and chemical biology. Independent nominations may be submitted by e-mail outlining the justification and including the nominee's CV and publication list. Additional independent letters of support to reinforce the nomination are strongly encouraged. Nominees should be resident in the UK or continental Europe, or have spent a considerable proportion of their career there. There is no requirement to be an RSC or BMCS member. There are no age restrictions, and nominees may have an academic or industrial background. Nominations should be submitted by the end of May 2023 and the outcome will be communicated to nominators and nominees by end of September 2023. Inductees will receive a medal and certificate, and will be invited to give a plenary lecture at an appropriate BMCS organized conference.

Independent nominations should be sent to the Conference Secretariat, Hg3 Conferences from 1st of January to 31st May 2023.

For the full list of requirements and terms and conditions, please see the guidance notes above.
