

RSC-BMCS International Travel Prize 2023

Announcement of Winners

The RSC Biological and Medicinal Chemistry Sector (BMCS) is pleased to announce the winners of the 2023 RSC-BMCS Travel Prize: **Callum Adams**, University of St Andrews; **Mihaela Ficu**, University of Manchester; **Yuan Gao**, University of Edinburgh; **Claudine Greenwood**, University of Strathclyde; **Elisha Griffin**, University of Surrey; **Alex Hallatt**, University of Newcastle-upon-Tyne; **Thomas Jackson**, Imperial College, London; **Oliver Knowles**, University of Manchester; **Eilidh Matheson**, Queen's University Belfast; **Katherine McPhie**, The Francis Crick Institute; **Robert Murnane**, De Montfort University; **Yi Ni Ong**, University of Oxford; **Maya Valmiki**, University of East Anglia; **Suzanne van Wier**, University of East Anglia.

The BMCS introduced the International Travel Prize programme in 2014 as an initiative to support, encourage and develop the training of next-generation research leaders. The winners receive funding of up to £2000 to support their attendance at, and travel to, high impact international conferences relevant to their research projects. The judges were extremely impressed with the quality and breadth of all the applications for the 2023 prize, and found it a very challenging to pick out the eventual winners. The judging panel and all the members of the BMCS committee would like to congratulate the winners, and sincerely thank all the participants for the excellence of their applications.

Information about applications for the 2024 BMCS Travel Prizes will be available later in the year, check www.rscbmcs.org or www.rsc.org/bmcs for further information.

A C Williams, Hon. Chairman, BMCS
