

First Announcement

10th RSC/SCI Symposium on GPCRs in Medicinal Chemistry

30th September - 2nd October
2026

Evotec Campus Levi-Montalcini,
Verona, Italy

#GPCRs2026

Synopsis

The key role of G protein-coupled receptors (GPCRs) in human disease underpins their importance to modern medicine. We are pleased to hold this 10th meeting in the series on GPCR drug discovery, which combines cutting edge medicinal chemistry with innovative structural biology and novel drug design approaches.

The meeting will consist of:

- Case studies in GPCR drug discovery and development
- Structural biology advances and impact on drug design

Organising Committee

Adrian Hall, UCB (Co-chair)

Caroline Low, Isomorphic Labs (Co-chair)

Daniel Jones, Nxera Pharma (Treasurer)

Andrew Williams, RSC BMCS

Fraser Cunningham, Recursion

Susanna Cremonesi, Evotec

Angela Russell, University of Oxford

Confirmed Speakers

Christa Muller, *University of Bonn*

György Keseru, *HUN-REN TTK*

Lotte Bjerre Knudsen, *Novo Nordisk*

Hui Lei, *Structure Therapeutics*

Ekaterina Ratkova, *AstraZeneca*

Call for Abstracts

Abstracts are invited for both oral and poster presentations. The deadline for abstract submission is Friday 10th July 2026. Please [click here](#) to submit your abstract.

Registration

Registration will open shortly, and discounted rates are offered to RSC and SCI members. If you wish to be notified when registration opens, please contact events@hg3.co.uk. A limited number of bursaries will also be available, please keep checking the meeting website for up-to-date information.
